

# EXCELA WESTMORELAND HOSPITAL SERVING THE COMMUNITY SINCE 1895

**Excelsa Health Westmoreland Hospital**, with 316 licensed beds, is a full service, acute care facility, and the hub of our Center for Cardiovascular Medicine. Here, patients have local access to award winning, comprehensive cardiac care featuring state-of-the-art technology and professional expertise, ranging from rapid emergency care to cardiac catheterization, open heart surgery, advanced vascular and thoracic surgery, interventional cardiology and rehabilitation. The Family Additions Maternity Center offers 10 labor and delivery suites, three triage rooms and 23 postpartum rooms as well as level II specialty nursing. Inpatient surgical services include general, orthopedic, bariatric, urology, minimally invasive and plastics care.
