WHERE SHOULD I GO FOR CARE?

WALK-IN CARE

Walk-In Care That's Quick, Convenient and Close to Home

For these symptoms or any other health problem you believe is life threatening, call 9-1-1 or go to the nearest emergency department.

Little things, like a skinned knee, can be treated at home. Life threatening conditions, such as chest pain, require a trip to an emergency department. For everything else, there's walk-in care.

Where can I find “walk-in” care?

Primary Care Weekends is your stop for convenient medical care when your doctor isn't available.

For more information, visit www.shakerurgentcare.com

Telephone: (In Diagnostic Associates across from the emergency department) 724-765-1230
