

Excelsa Health WORKS Occupational Medicine Offers PCR COVID-19 Testing TO INDIVIDUALS WITH NO SYMPTOMS

What is a PCR test? A polymerase chain reaction (PCR) test, the most accurate and reliable test available for detection of COVID-19.

Who may need a PCR COVID-19 test? Individuals needing to show proof of a negative COVID-10 test to return to work or school.

Monday through Friday
7:30 a.m. to 4 p.m. By Appointment Only

Test administered at these locations:

- Greensburg
443 Frye Farm Road, Upper Level
Greensburg, PA 15601

Results available in 24 to 48 hours

- Results will go directly to individual and employer if the employer is paying for the test.
- If the individual would like results to go directly to the employer request should be made.

\$150 Out-of-pocket fee for service:

- All forms of payment accepted
- Payment expected at time of service
- Medical insurance not accepted

What you need to know:

- By Appointment Only
- Nasal swab test

**THIS SERVICE IS INTENDED
SOLELY FOR INDIVIDUALS
WITH NO SYMPTOMS.**
