EXCELA HEALTH REMAINS AMONG NATION’S HEALTHIEST 100 WORKPLACES

GREENSBURG, PA., October 17, 2017… Excela Health has been recognized for the fourth year in a row as a Healthiest 100 Workplace in America, an awards program presented by Healthiest Employer, LLC.

The top 100 employers were recognized in September at the Corporate Wellness Conference® in Chicago. The winning organizations were honored for their commitment to employee health and exceptional corporate wellness programming. More than 6,000 employers across the country applied for the award.

Award applicants were evaluated across six key categories: Culture and Leadership, Foundational Components, Strategic Planning, Communication and Marketing, Programming and Interventions, and Reporting and Analysis. Completed assessments were ranked with the proprietary Healthiest Employer Index, a 1-100 metric for wellness programming. In 2017, Excela Health was ranked 23 out of 100.

“Maintaining a culture of wellness and safety is a priority for Excela Health because it’s the right thing to do for our employees and their families, and ultimately the patients in our care.” said Laurie English, Excela Health Chief Human Resources Officer. “Our efforts continue to produce results that can be modeled by other employers to improve the overall health status of our community. Continued recognition for our accomplishments validates that we are achieving our mission by improving the health and well-being of every life we touch – beginning with our employees.”
Since 2011, Excela Health also has been recognized among the Healthiest Employers in Western Pennsylvania.

About Healthiest Employer, LLC

Healthiest Employers is an awards program that recognizes organizations that proactively shape the health of their employees. To date, Healthiest Employer has served as a resource to over 8,000 U.S. employers that represent 60 million employees. This program is conducted by Springbuk, a health analytics company.
